

Leon W Gilbert (Cert Ed, ISM)

Mini-Abstract:-

To discuss the off-road driving & travelling in cars and other forms of powered transport, by people with little or no vision, with presentations from UK and International sources, on developments and achievements in the field.

Including:-

- * Speech based navigation systems, & vehicular travel.
- * Multi-sensory aspects of controlling, travelling, and participating in powered vehicles without the use of sight.
- * International Developments related to blind people and off-road driving.
- * UK Blue badges and visually impaired passengers - the law & good practice.
