

## International BiOptic Driving Conference

"Driving with Low Vision in Spain. Present situation and future trends".

### **M. Cejudo, A. Barañano.**

Words for presentation

Manuel Cejudo is the pioneer of Low Vision in Spain. First Director of "CERVO" (1985) was a key person in the development of visual rehabilitation services in ONCE, the National Organisation for the Blind. Being a low vision person from birth, Manuel Cejudo has demonstrated a permanent commitment with visual deficiency assuming several roles in the direction board of ONCE.

Angel Barañano, the second author, is a Doctor in Optometry, low vision specialist (nineteen years of experience) and a member of the American Academy of Optometry. Presently he is the Director of "Low Vision Angel Barañano", a private practice consult.
