

Lori L. Grover, O.D., F.A.A.O.

Dr. Grover received her Doctor of Optometry degree from the Illinois College of Optometry in 1990. She also received her B.S.V.S. degree from ICO in 1998. Dr. Grover is a 1985 graduate of Albion College where she received her B.A. in Biology. After graduation from ICO she joined a Certified Low Vision Specialists private group practice in Michigan. In 1995 she established her own private practice in Sylvania, Ohio where she specialized in low vision rehabilitation and coordinated the Bluffton Hospital Low Vision Rehabilitation Specialty Clinic. Dr. Grover accepted appointment at the Southern California College of Optometry in August 2000 where she served as an Assistant Professor and Chief of the Low Vision Rehabilitation Service until June 2003 when her family relocated to Scottsdale, Arizona. Currently Dr. Grover is returning to private practice and continues to provide consultative service in development and implementation of vision rehabilitation practices.

Dr. Grover is a member of the American Optometric Association Low Vision Rehabilitation Section Executive Council, serving as Chair of Communications Committee and as a member of the State Association Low Vision Committees Task Force. She is a Fellow of the American Academy of Optometry and is pursuing her Diplomate in Low Vision. She continues to serve on the Health Care Delivery Systems Committee of the California Optometric Association and recently served as President of the Orange County Optometric Society. She is a Past Chair of the Ohio Optometric Association Vision Rehabilitation Committee. Dr. Grover is a site consultant for the AOA Accreditation Council on Optometric Education, and is frequently featured on television, radio and in print media. Her research interests include driving with visual impairment, vision rehabilitation accreditation, delivery models and outcomes assessment.
